US Wt: 930.0 • **US IMF:** 3.92 • **US BF:** 0.11 • **US REA:** 12.47

Many of the Reflected R Ranch bulls with lower PAP scores that would thrive at high mountain elevation (6,000-feet and above) were sold during the March 2017 High-Altitude Bull Sale. Our other bulls, listed for sale here, had PAP scores that would work better at lower elevations or were a bit younger in age, and they're now being offered private treaty.

All bulls are semen tested and trich tested before delivery, so that you know they're ready for turnout.

Printed ASA data updated on April 15, 2017. For a full description of each bull, go to our website: **www.ReflectedRRanch.com**. If questions, call Curt's cell ph: **719-469-BULS** (2857) or email reflected.r.ranch@gmail.com. We'd love for you to come by the ranch at 24614 Road G, Sugar City, CO, too.

*Curtis Russell helps Robin Dunn of NM, on an EPD question prior to the auction. Curt & Susan take the time to help you find a bull that **best fits** your operation.*

Thank you buyers

Reflected R Ranch offers its sincere thanks to its bull buyers. Several buyers have commented about the expression of muscle and genetic potential in this year's bulls. Thanks for the compliments, plus a special thank you to buyers thus far:
